Data for the Regional Authority Index (RAI) v.3. are available in five different aggregations. This codebook covers **RAI-Region**, which provides annual scores for **the most authoritative tier** in a country with regions from 1950 to 2018. Each row breaks a tier–year down into ten dimensions, two domains, and the overall RAI. Hence this dataset contains a subset of the regional estimates that are available in RAI-MLG. **This is the codebook for RAI-region.**

Contents

Table 1: Five RAI V.3 datasets

RAI-MLG	Annual scores for each individual region or regional tier from 1950-2018. Each row breaks a region–year down into ten dimensions, two domains, overall RAI. This is the master dataset that has a comprehensive record of all scores at the most disaggregated level.
RAI-Country	Annual scores for each country from 1950-2018. Each row breaks a country–year down in ten dimensions, two domains, and overall RAI.
RAI-Region	Annual scores for the most authoritative regional tier from 1950-2018. Each row breaks a tier–year down into ten dimensions, two domains, and overall RAI.
RAI-Metro	Annual scores for each individual metropolitan region or metropolitan tiers from 1950-2018. Each row breaks a metro–year down into ten dimensions, two domains, and overall RAI.
RAI-Indigenous	Annual scores for each individual indigenous region or collective indigenous territorial arrangements from 1950-2018. Each row breaks an indigenous–year down into ten dimensions, two domains, and overall RAI.

A codebook accompanies each dataset. **This is the codebook for RAI-Region.**

Unit of analysis

The most authoritative regional tier in a country at time 1. We pick up also two types of differentiated regions: (a) for countries without a regional tier, individual regions that have self-rule or shared rule; (b) for countries that have a regional tier, regions that are differentiated in self-rule or shared rule from standard regions. Differentiated regions, whether self-standing or part of a regional tier, are prorated by their population compared to the country population estimated in 2010. For example, for Spain, we estimate the following:

a. 1950-1981: provincias as the most authoritative tier; Ceuta & Melilla (1956-1982), the provnces of Araba and Navarra (1950-1982), and for a few years, Biskaya & Gipuzkoa (1978-1982), are coded as differentiated regions at that same tier.
b. 1982-2018: comunidades as the most authoritative tier; Ceuta & Melilla, Navarra, Catalonia, Basque Country, and Galicia are coded as differentiated regions at that same tier.

For a detailed discussion of the coding schema, please read:

Hooghe, Liesbet, Gary Marks, Arjan H. Schakel, Sandra Chapman Osterkatz, Sara Niedzwiecki, Sarah Shair-Rosenfield (2016). Chapter Three: How We Apply the Coding Scheme. *A Postfunctionalist Theory of Governance. Volume I: Measuring Regional Authority.* Oxford: Oxford University Press.

Table 2: Explanation of entries in excel file

VARIABLE NAME	RANGE	VALUES AND LABELS
cowcode	2-920	Correlates of War codes (http://www.correlatesofwar.org)
iso3166	8-891	International Organization for Standardization (ISO 3166-1)
countryid	1-152	Country ID (see table below)
country_name		Country name in English (see table below)
year	1950-2018	Year of evaluation
tier	1-5	Tier level of the most authoritative tier 1: highest tier in the country 2: second tier in the country 3: third tier in the country 4: fourth tier in the country 5: fifth tier in the country
regionid1	101-15212	Region ID of standard tier
region_name1		Name of regional standard tier
regionid2	101-15212	Region ID of differentiated regions at that tier or as anomalies in country
region_name2		Name(s) of differentiated regions at that tier
instdepth	0-3	The extent to which a regional government is autonomous rather than deconcentrated: 0: no functioning general-purpose administration at regional level 1: deconcentrated, general-purpose, administration 2: non-deconcentrated, general–purpose, administration subject to central government veto 3: non-deconcentrated, general–purpose, administration *not* subject to central government veto.
policyautonomy	0-4	The range of policies for which a regional government is responsible: 0: very weak authoritative competence in a), b), c), d) whereby a) economic policy; b) cultural-educational policy; c) welfare policy; d) one of the following: residual powers, police, own institutional set–up, local government 1: authoritative competencies in one of a), b), c) or d) 2: authoritative competencies in at least two of a), b), c), or d) 3: authoritative competencies in d) and at least two of a), b), or c) 4: criteria for 3 plus authority over immigration or citizenship.
fiscalautonomy	0-4	The extent to which a regional government can independently tax its population: 0: central government sets base and rate of all regional taxes 1: regional government sets the rate of minor taxes 2: regional government sets base and rate of minor taxes 3: regional government sets the rate of at least one major tax: personal income, corporate, value added, or sales tax 4: regional government sets base and rate of at least one major tax.
borrowautonomy	0-3	The extent to which a regional government can borrow:

		0: the regional government does not borrow (e.g. centrally imposed rules prohibit borrowing)
		1: the regional government may borrow under prior authorization (*ex ante*) by the central government and with one or more of the following centrally imposed restrictions:
		    a. golden rule (e.g. no borrowing to cover current account deficits)
		    b. no foreign borrowing or borrowing from the central bank
		    c. no borrowing above a ceiling
		    d. borrowing is limited to specific purposes
		2: the regional government may borrow without prior authorization (*ex post*) and under one or more of a), b), c), d), e)
		3: the regional government may borrow without centrally imposed restrictions.

representation	0-4	The extent to which a region has an independent legislature and executive, which is the sum of *assembly* and *executive*.
lawmaking	0-2	The extent to which regional representatives co–determine national legislation, which is the sum of *L1 to L6 (max=2)*.
executivecontrol	0-2	The extent to which a regional government co–determines national policy in intergovernmental meetings, which is the maximum value of *exec_multilateral* and *exec_bilateral*.
fiscalcontrol	0-2	The extent to which regional representatives co–determine the distribution of national tax revenues, which is the maximum value of *fiscal_multilateral* and *fiscal_bilateral*.
borrowcontrol	0-2	The extent to which a regional government co–determines subnational and national borrowing constraints, which is the maximum value of *borrow_multilateral* and *borrow_bilateral*.
constitutional	0-4	The extent to which regional representatives co–determine constitutional change, which is the maximum value of *constit_multilateral* and *constit_bilateral*.
selfrule	0-18	The authority exercised by a regional government over those who live in the region, which is the sum of *instdepth*, *policyautonomy*, *fiscalautonomy*, *borrowautonomy*, and *representation*.
sharedrule	0-12	The authority exercised by a regional government or its representatives in the country as a whole, which is the sum of *lawmaking*, *executivecontrol*, *fiscalcontrol*, *borrowcontrol*, and *constitutional*.
RAI	0-30	Regional authority index, which is the sum of *selfrule* and *sharedrule*.
COMPONENTS		
assembly	0-2	0: no regional assembly 1: indirectly elected regional assembly 2: directly elected assembly
executive	0-2	0: regional executive appointed by central government 1: dual executive appointed by central government and regional assembly 2: regional executive appointed by a regional assembly or directly elected

L1lawmaking	0-0.5	0: a region or regional tier is *not* the unit of representation in a national legislature 0.5: a region or regional tier is the unit of representation in a national legislature
L2lawmaking	0-0.5	0: a regional government or regional tier does *not* designate representatives in a national legislature 0.5: a region or regional tier designates representatives in a national legislature
L3lawmaking	0-0.5	0: regions do *not* have majority representation in a national legislature based on regional representation 0.5: regions have majority representation in a national legislature based on regional representation
L4lawmaking	0-0.5	0: the legislature based on regional representation does *not* have extensive legislative authority 0.5: the legislature based on regional representation has extensive legislative authority
L5lawmaking	0-0.5	0: the regional government or its regional representatives in a national legislature are *not* consulted on national legislation affecting the region 0.5: the regional government or its regional representatives in a national legislature are consulted on national legislation affecting the region
L6lawmaking	0-0.5	0: the regional government or its regional representatives in a national legislature do *not* have veto power over national legislation affecting the region 0.5: the regional government or regional representatives in a national legislature have veto power over national legislation affecting the region
exec_multilateral	0-2	0: no routine meetings between the central government and regional governments to negotiate policy 1: routine meetings between the central government and regional governments without legally binding authority 2: routine meetings between the central government and regional governments with legally binding authority
exec_bilateral	0-2	0: no routine meetings between the central government and the regional government to discuss national policy affecting the region 1: routine meetings between the central government and the regional government without legally binding authority 2: routine meetings between the central government and the regional government with legally binding authority

fiscal_multilateral	0-2	0: neither the regional governments nor their representatives in a national legislature are consulted over the distribution of national tax revenues 1: regional governments or their representatives in a national legislature negotiate over the distribution of national tax revenues, but do not have a veto 2: regional governments or their representatives in a national legislature have a veto over the distribution of national tax revenues
fiscal_bilateral	0-2	0: neither the regional government nor its representatives in a national legislature are consulted over the distribution of tax revenues affecting the region 1: the regional government or its representatives in a national legislature negotiate with the central government over the distribution of tax revenues affecting the region, but does not have a veto 2: the regional government or its representatives in a national legislature have a veto over the distribution of tax revenues affecting the region
borrow_multilateral	0-2	0: regional governments are not routinely consulted over borrowing constraints 1: regional governments negotiate routinely over borrowing constraints, but do not have a veto 2: regional governments negotiate routinely over borrowing constraints and have a veto
borrow_bilateral	0-2	0: the regional government is not routinely consulted over borrowing constraints affecting the region 1: the regional government negotiates routinely over borrowing constraints affecting the region, but does not have a veto 2: the regional government negotiates routinely over borrowing constraints affecting the region, and has a veto

constit_multilateral	0-4	0: the central government or national electorate can unilaterally reform the constitution 1: a legislature based on regional representation can propose or postpone constitutional reform, raise the decision hurdle in the other chamber, require a second vote in the other chamber, or require a popular referendum 2: regional governments or their representatives in a national legislature propose or postpone constitutional reform, raise the decision hurdle in the other chamber, require a second vote in the other chamber, or require a popular referendum 3: a legislature based on regional representation can veto constitutional change; or constitutional change requires a referendum based on the principle of equal regional representation 4: regional governments or their representatives in a legislature can veto constitutional change
constit_bilateral	0-4	0: the central government or national electorate can unilaterally reform the region's constitutional relation with the center 1: a regional referendum can propose or postpone reform of the region's constitutional relation with the center 2: the regional government can propose or postpone reform of the region's constitutional provisions or require a popular referendum 3: a regional referendum can veto a reform of a region's constitutional relation with the center 4: the regional government can veto a reform of the region's constitutional relation with the center

Table 3: Country id, region id, region name, year-rows in dataset

Legend: Colored entries indicate most authoritative status; non-colored entries indicate estimation in the RAI-MLG irrespective of the authoritative status of the tier. Tiers or regions that shift in/out most authoritative status are twice in the table below: once for indicating their coverage in the RAI-region dataset (years of most authoritative status; colored entries), and once for indicating their full coverage in the RAI-MLG dataset (non-colored entries).

	Most authoritative standard tier for indicated years
	Differentiated region(s) in the most authoritative tier for indicated years
	Other than most authoritative region/tier (included in RAI-MLG)

Country ID	Country Name	Region ID	Region Name	Year-rows in the dataset
1	Albania	101	Qarku [counties]	2000-2018
2	Australia	201	States	1950-2018
